

Tank-mix sheet

Revised February 2011

Please note that physical compatibilities may not be approved tank-mixes. The tests do not check for any adverse crop phytotoxicity or for the biological efficacy of the individual components when applied in a tank-mix. Bayer CropScience gives no warranty and accepts no liability in respect of physical compatibilities; therefore, use is at grower's own risk.

All the requirements or restrictions on other product labels must be adhered to when tank-mixing with decis[®] protech. Contact Bayer CropScience for full details.

Always maintain continuous agitation of the spray tank during mixing, transportation and application.

decis protech is physically compatible with **ONLY ONE** of the following tank-mix partners:
