

Tank-mix Sheet

Oilseed Rape

Please note that physical compatibilities may not be approved tank-mixes. The tests do not check for any adverse crop phytotoxicity or for the biological efficacy of the individual components when applied in a tank-mix. Bayer Crop Science gives no warranty and accepts no liability in respect of physical compatibilities; therefore, use is at grower's own risk.

All the requirements or restrictions on other product labels must be adhered to when tank-mixing with Propulse®. Contact Bayer CropScience for full details.

Bayer CropScience will support the tank-mixing of Propulse with any of the herbicides in the first column as well as with an insecticide from the second column. A maximum of only two selections, one from the list of herbicides and one from the list of insecticides may be mixed at any one time e.g.

Propulse + Falcon + cypermethrin OR Propulse + Falcon + decis etc.
